incisive and up to date this textbook lucidly explains the economic principles
underlying effective regulatory and antitrust policies and provides a thorough
examination of their consequences richard zeckhauser ramsey professor kennedy
school of government harvard university this new edition of economics of
regulation and antitrust continues to place economic reasoning first and
foremost in analyzing regulatory and antitrust issues it remains the only text that
introduces the field by stressing the economic theory and empirical analysis that
provides the rationale for government intervention in the market the focus on
economic principles however does not exclude treatment of institutional aspects
of regulation and antitrust policy which are explored in extensive case studies on
mergers cable television and transportation regulation among other topics
following two introductory chapters the text is divided into three parts antitrust

policy economic regulation and social regulation each part can be used separately for a variety of courses questions and problems appear at the end of almost every chapter new topics such as regulation of environmental tobacco smoke have been added to the second edition and other topics such as pharmaceutical regulation and the new price competition in electric power have been given entirely new treatments to reflect the changing emphases of government policy the chapters on the airline cable television and telecommunications industries have been updated and studies assessing the impact of airline deregulation on market concentration air fares and airline safety have been revised there are extensive reviews of important regulatory changes regarding cable television rates and sections have been added to cover such major regulatory issues as telecommunication and the digital convergence of communications computers and entertainment and their impact on both traditional and wireless local telephone long distance telephone and cable television

this text offers detailed and comprehensive treatment of basic rules principles and issues relating to antitrust law to meet the needs of both students and practitioners for treatment of major antitrust areas the authors address new areas treat a number of areas more fully and thoroughly reassess core concepts like monopolization and horizontal and vertical restraint

shortlisted for the 2012 prix vogel in economic law public procurement and competition law are both important fields of eu law and policy intimately intertwined in the creation of the internal market hitherto their close connection has been noted but not closely examined this new work is the most comprehensive attempt to date to explain the many ways in which these fields often considered independent of one another interact and overlap in the creation of the internal market in this process of convergence between competition and public procurement law the need for this joint study is clearly apparent as such the book asks whether competition law principles inform or condition public procurement rules and whether they are adequate to ensure that competition is not distorted in markets where public procurement is particularly significant the book moves away from the classical focus of public procurement on the activities of private actors developing instead an analytical framework for the appraisal of the market behaviour of the public buyer from a competition perspective the analysis is both legal and economic proceeding through a careful assessment of the general rules of competition and public procurement the book constantly tests the efficacy of the rules in competition and public procurement against a

standard of the proper functioning of undistorted competition in the market for public procurement

the award winning the new palgrave dictionary of economics 2nd edition is now available as a dynamic online resource consisting of over 1 900 articles written by leading figures in the field including nobel prize winners this is the definitive scholarly reference work for a new generation of economists regularly updated this product is a subscription based product

american economic history describes the transition of a handful of struggling settlements on the atlantic seaboard into the nation with the most successful economy in the world today as the economy has developed so have the methods used by economic historians to analyze the process interest in economic history has sharply increased in recent years among the public policy makers and in the academy the current economic turmoil calling forth comparisons with the great depression of the 1930s is in part responsible for the surge in interest among the public and in policy circles it has also stimulated greater scholarly research into past financial crises the multiplier effects of fiscal and monetary policy the dynamics of the housing market and international economic cooperation and conflict other pressing policy issues including the impending retirement of the baby boom generation the ongoing expansion of the healthcare sector and the environmental challenges imposed by global climate change have further increased demand for the long run perspective given by economic history confronting this need the oxford handbook of american economic history affords access to the latest research on the crucial events themes and legacies of america s economic history from colonial america to the civil war up to present day more than fifty contributors address topics as wide ranging as immigration agriculture and urbanization over its two volumes this handbook gives readers not only a comprehensive look at where the field of american economic history currently stands but where it is headed in the years to come

this text covers the area of entertainment and broadcasting with explanation of the law and discussion of its practical application in the media world it covers areas such as entertainment contracts broadcasting regulation and disputes

this introduction to both the hows and whys of the practices of public policy provides reality based practical advice about how to actually conduct policy analysis and demonstrates the application of advanced analytic techniques covers such topics as efficiency and the idealized competitive model rationales for public policy market failures other limitations of the competitive framework

and distributional and other goals limits to public intervention government failures correcting market and government failures generic policies how to confront policy problems goals alternatives matrices some examples from cbo studies benefit cost analysis thinking strategically about adoption and implementation benefit cost analysis in bureaucratic settings the strategic petroleum reserve when statistics count revising the lead standard for gasoline for anyone involved in policy analysis public policy public finance cost benefit analysis

this study is motivated by the widespread concern with the extent of costly and ill conceived regulations in new zealand introduction p 1
